18101 Von Karman Avenue, Suite 1800

Irvine, CA 92612

Brad Kuhn, Chair of Nossaman's Eminent Domain & Valuation Group, guides private and public sector clients through the real estate aspects of complex development and infrastructure projects -- particularly with eminent domain/inverse condemnation, land use/zoning, construction, and other property and business disputes. Selected to lead some of the largest projects in the nation, Brad has counseled on developments valued at more than \$25 billion.

An accomplished real estate and business litigation attorney, Brad focuses on the transportation, energy / gas, water, land use development, and telecommunications sectors. His work has been profiled in numerous publications, including multiple cover features in Right of Way Magazine. He is a sought-after speaker and the author of several treatises, including works on ground lease practices, condemnation, and real estate valuation.

Both *Chambers & Partners* and *Best Lawyers in America*®, publishers of the guides to the nation's leading lawyers, recommend Brad for land use, zoning, and infrastructure matters, commending his "practical, business-minded advice" and his "high level of decorum in dealing with the other sides." He has earned the CRE® designation by the Counselors of Real Estate®, distinguishing him as a leading advisor in complex real property matters.

Some of Brad's other accolades and recognitions include:

- Recognized by the *Recorder* as a California Trailblazer, a recognition given to only a "handful of attorneys that are truly agents of change" and have "made significant marks on the practice, policy and technological advancement of their practice."
- Selected for inclusion in the legal directory *Best Lawyers in America*® in the category of Land Use and Zoning Law;
- Named to the *Daily Journal's* Top 20 Under 40 list, a recognition given to the top 20 lawyers in California that are on the cutting edge of legal issues, and who are making an impact on changing an industry, region or society;
- Chosen for individual recognition by *Chambers USA* for Real Estate: Zoning/Land Use Law;
- Recognized as the Top Rated Lawyer in Land Use and Zoning by the *American Lawyer*;
- Named the Best Land Use/Zoning Attorney in Orange County by *Orange County Register*;
- Recognized as the Best Eminent Domain Attorney by *US Business News' Legal Elite*;
- Selected as a Southern California Super Lawyer, and repeatedly acknowledged on Up-and-Coming Top 25 Orange County and Up-and-Coming Top 100 Southern California Rising Stars lists; and

- Awarded an AV-Preeminent Rating by *Martindale-Hubbell*, a rating given to only those attorneys who exhibit the highest level of professional excellence based on a review of their peers.

Brad sits on the Advisory Board to Mobility 21, and has served as general counsel to the International Right of Way Association (IRWA), where he was elected as President of the Inland Empire Chapter and named as the organization's "Professional of the Year."

## EXPERIENCE

---

### PRIVATE REPRESENTATION

**T-Mobile.** Represent client in a wide-range of real estate and major litigation matters, including landlord/tenant and contract disputes, site upgrade and access rights, relocation claims, construction, property damage, unlawful detainer, eminent domain, and utility disagreements. Represented client in the matter of *D'Aguiar v. T-Mobile USA, Inc.*, at both the California trial court and the California Court of Appeal regarding the enforceability of the arbitration provision in T-Mobile's consumer cell phone contracts. In a complete victory for the client, the trial court and appeals court confirmed that T-Mobile's terms of use and arbitration requirements within its consumer cell phone agreements are legal and enforceable.

**24 Hour Fitness.** Represented one of the world's largest fitness chains in negotiating just compensation for the taking of one of its gyms for a new high school. The settlement resulted in an award of over \$23 million, which included loss of business goodwill, furniture, fixtures and equipment (FF&E), and leasehold bonus value, along with relocation reimbursement to substantially expand and improve another nearby gym and obtain additional parking rights. The complex and successful negotiations allowed the client to keep its club open for several years to assist with the transition of members and minimize business losses.

**Crystal Geyser.** Currently representing large producer of bottled water with respect to the potential acquisition / condemnation of its water rights, including negotiating valuation issues, purchasing additional water rights, and transferring water to the local city for industrial uses.

**Jackson Family Wines.** Currently representing one of the top-10 wine producers in the United States with real estate issues related to the proposed development of its Freemark Abbey winery complex and its Vinwood Cellars property.

**Portola Hotel & Spa v. City of Monterey.** Represented one of Monterey's most recognized hotels located next to Old Fisherman's Wharf, with an inverse condemnation and land use / zoning lawsuit related to the City of Monterey's \$60 million conference center renovation and its attempted changes to surrounding land uses. The matter settled shortly before trial with total monetary consideration and the restoration of significant property rights valued at over \$13 million.

**Winchester 700 v. Western Riverside County Regional Conservation Authority.** Represented owner of a 454-acre property in Riverside County that was sought for conservation purposes. The RCA and the County refused to process the owner's residential development entitlements, yet they never made an offer to purchase, instead "de facto" conserving the property. Under threat of an inverse condemnation action, Brad assisted the owner in an arbitration which ultimately resulted in a settlement for more than \$70 million.

**Penn National Gaming / San Diego Gaming Ventures.** Provided client with real estate and land use advice related to the construction of the \$400-million Hollywood Casino Jamul project in San Diego. Brad successfully represented the client before the County Planning Commission, and defended litigation related to the use of nearby property for construction purposes, which litigation resulted in a judgment in the client's favor and a substantial award of attorneys' fees. Brad also negotiated numerous real estate transactions related to the project and off-site improvements and worked with environmental agencies to solve complex real estate-related matters.

**Makar Properties v. City of Huntington Beach.** Represented developer in connection with a dispute regarding the value of the "Pacific City" beach-front property, which value determined the park-in-lieu fee to be paid as part of its development. The parties were nearly \$50 million apart in their valuation figures. Brad assisted the client at binding arbitration where the three judge panel awarded a value exactly at the client's appraisal testimony, which equated to a savings of \$20 million in park fees.

**Martz v. Morro Bay.** Represented owners of a 50+-acre property against the City of Morro Bay to successfully negotiate a favorable settlement for just compensation and ensuring appropriate development rights moving forward after the City sought to acquire easements over a portion of the property for a \$125 million wastewater treatment facility, the largest infrastructure project in Morro Bay history.

**Orange County Sanitation District v. Sukut Real Properties.** Represented owner of three Fountain Valley office buildings in negotiating sale of property under threat of eminent domain for a settlement approaching \$20 million -- millions of dollars above the public agency's offer.

**Los Altos School District v. 201 San Antonio Circle.** Represented Mountain View property owner in fending off school district's efforts to condemn property through various right-to-take challenges and CEQA-challenges. After rejecting the district's nearly \$90 million offer, the successful defense against condemnation allowed the owner to move forward with securing entitlements for a 450-unit mixed-use residential development.

**Truxtun Court Partners.** Represented commercial property owners in an inverse condemnation action related to the city's closure of the property's primary driveway which resulted in a taking of abutter's rights and a substantial impairment of access. The case settled for \$2 million.

**Caltrans v. Bayport Imperial Promenade.** Represented several restaurants suffering loss of business goodwill as a result of Caltrans' Imperial Highway grade separation project. At trial, Brad successfully excluded Caltrans' goodwill appraiser, and subsequent to the jury's verdict, Caltrans settled the case by paying the business' attorneys' fees.

**Santa Barbara Flood Control & Water Conservation District v. Funk Youth Hostel.** Represented property owner in an eminent domain action involving the acquisition of easements for a flood control project. Shortly before trial, Brad successfully convinced the district to partially abandon the broad rights being acquired, and secured a judgment from the court awarding substantial attorneys' fees and litigation expenses.

**City of Santa Ana v. Pacific Industrial.** Represented owner of industrial site sought to be acquired for a new homeless shelter. After receiving an offer under threat of eminent domain for nearly \$10 million, Brad successfully convinced the city to shift its project to another location by demonstrating potential liability for precondemnation damages and a property value at more than double the city's offer.

**Construction Matters.** Represent developers, general contractors, and subcontractors with construction-related disputes, including change orders, construction-delay claims, liquidated damages, and other damage issues.

**International Right of Way Association (IRWA).** Served as general counsel to the 10,000+ professional member organization comprised of global infrastructure real estate practitioners from over 15 countries around the world.

## PUBLIC AGENCY REPRESENTATION

**San Diego Association of Governments (SANDAG).** Representing SANDAG with property acquisitions for the Mid-Coast Corridor Transit Project, a \$2 billion, 11-mile trolley line extension from downtown San Diego to University City. Also providing strategic advice and oversight related to the planned Airport Connectivity Project, and provided real estate/condemnation services for the Downtown Bus Stopover / Multi-Use, South Bay BRT, Inland Rail Trails, Sorrento Valley Double Track, Robinson Bikeway, and Bayshore Bikeway Projects.

- **West Coast v. SANDAG.** Defended SANDAG against lawsuit challenging the award of a contract for a major public works project, and obtained a dismissal of the action after defeating contractor's request for a preliminary injunction. The first-of-its-kind decision has widespread impacts on public agencies across California, as the court's decision allows for more bidders and lower proposals on public works projects.

**City of Los Angeles / Los Angeles World Airports (LAWA).** Advising on real property matters related to a \$5 billion program to ease access in and out of LAX airport by developing a consolidated rental car center, an elevated 2.5-mile automated people mover system, intermodal transportation facilities, and a joint station connecting to Los Angeles' rail system.

**Honolulu Authority for Rapid Transportation (HART).** Advising client on complex property acquisitions and relocation issues for the Honolulu Rail Transit Project, an \$8 billion, 20-mile elevated rail corridor system running from East Kapolei to Ala Moana Center, with stations at 21 key commuter and visitor destinations.

**Los Angeles County Metropolitan Transportation Authority.** Assisted Metro with acquiring numerous properties for the Purple Line Westside Subway Extension Project, a \$6+ billion, 9-mile subway extension through Beverly Hills and Westwood. Also assisted with the LAX/Crenshaw Transit Corridor Project, a \$2+ billion, 8.5-mile light rail line through the Crenshaw and Inglewood area, and the Rosecrans/Marquardt Grade Separation Project, a project to improve one of the most dangerous intersections in California. Also defended client with numerous inverse condemnation and other real property tort claims.

- **LA MTA v. KBG Associates.** Successfully represented client at the Court of Appeal to defeat property owner's multi-million dollar severance damages claim due to the termination of a license to cross railroad tracks. The decision confirmed eminent domain law regarding the non-compensability of a license, the enforceability of a waiver of the right to just compensation, the scope of the "project influence rule," and the applicability of the substantial impairment of access test.

**Southern California Edison.** Representing Edison with real estate, encroachment dispute, utility relocation, inverse condemnation, and right of way acquisition services for multiple electric transmission projects. Brad has guided the client to effectively defeat multiple property owners' right to take challenges and precondemnation damages claims.

- **Edison v. Constant.** Work included the taking of a transmission line easement over a portion of commercial property. The property owner sought compensation of over \$6 million. Brad was able to secure a verdict at trial for Edison's appraised value of \$66,000. The verdict was upheld by the Court of Appeal in a significant decision for public utilities across California.

**Exposition Metro Line Construction Authority.** Represented Expo with acquiring properties for the Expo Light Rail Transit Project, a \$2+ billion, 15-mile light rail line connecting downtown Los Angeles with Santa Monica.

- **Expo v. Patchett.** Work included the condemnation of the Bergamot Station Art Center in Santa Monica in which Brad was able to secure favorable settlements with all but one business at the property which claimed damages of over \$10 million. Brad served as lead trial attorney, successfully arguing a legal issues motion and motions *in limine* to exclude the business' real estate, goodwill, and inventory experts which resulted in the case settling for less than 1% of the business' claims.
- **Expo v. 9000 Venice Partners.** Work included the condemnation of a portion of a retail shopping center in which Brad served as lead trial counsel in a three week jury trial as to a real estate claim by the property's owner and a goodwill claim by a Wendy's fast food restaurant. The jury verdict was exactly at Expo's damages figure as to the real estate, and only 5% of the goodwill claim presented by the business. The total verdict was far less than Expo had offered to settle for before trial.

**San Bernardino County Transportation Authority.** Assisted SBCTA with the acquisition of properties for the Downtown San Bernardino Passenger Rail Project/San Bernardino Transit Center and the Redlands Passenger Rail Project, which projects will combine to provide a 10-mile extension of Metrolink rail service in the Inland Empire. Also represented client in acquiring portions of 150+ properties for the sbX E-Street Corridor BRT Project, a first-of-its-kind 15.7-mile bus rapid transit line. Brad was able to secure possession of the entire right of way, under budget, on an incredibly ambitious schedule to ensure the project secured necessary FTA funding.

- **SANBAG v. Luga.** Work included the condemnation of a portion of a gas station where the property/business owner was seeking compensation for nearly 10 times SANBAG's appraised value. On the first day of trial, the court granted SANBAG's motions *in limine* and excluded the owner's appraisers' damages opinions. The case then resolved for a nominal amount above SANBAG's appraised value (an amount far less than SANBAG's previously exchanged final offer of compensation).

**California Water Service Company.** Providing client with real property acquisition advice for a variety of water projects. Also advising client with inverse condemnation, utility relocation, franchise rights, and other legislative issues.

**Southern California Gas Company.** Represent client with property acquisitions and real estate-related issues on several pipeline safety enhancement projects throughout California.

**United States Postal Service.** Advised client on land use, zoning, affordable housing, and title issues impacting the eventual sale of a 25-acre property in Aliso Viejo for over \$30 million.

**Metro Gold Line Foothill Extension Construction Authority.** Advising client on various real property and construction-related issues for the Foothill Gold Line Extension Project, including acquisition of properties for new transit stations throughout Los Angeles County.

**Sacramento Area Flood Control Agency.** Represented client in successfully negotiating the acquisition of an active rail line in order to construct a critical flood control project.

**California-American Water Company.** Guiding client through the acquisition of numerous real estate holdings to assist in the provision of community water service.

**County of Amador.** Represented client in securing necessary property for an intersection improvement project. Work included addressing complex title issues, including the clearing of a conservation easement.

**Orange County Transportation Authority.** Providing OCTA with real estate/condemnation advice for various projects. Work included representation in an eminent domain and inverse condemnation action arising from the Placentia Avenue Grade Separation Project where the property owner and two national retail tenants, Home Depot and Sam's Club, cumulatively claimed nearly \$100 million in damages due to OCTA's acquisition and the purported impacts on the ability to redevelop the site. The matter was resolved shortly before trial for approximately 3% of the claimed damages.

**Los Angeles Unified School District.** Represented LAUSD in numerous property acquisitions for school expansion projects. Work included the condemnation of a 24-acre industrial property along the Los Angeles River. The litigation involved issues of contamination, overlapping easements, and undocumented encroachments. After defeating the owner's right-to-take challenge at trial, the matter settled for \$50 million, which was more than \$25 million less than the owner's appraiser's valuation.
