

Regulatory & Compliance Matters

New administrations, regulations and enforcement priorities impact long lead time projects. The country's infrastructure has long been in the spotlight; however, increasing pressure and scrutiny by stakeholders, competitors, customers and suppliers underscores the importance of continuous vigilance.

We assist clients with all aspects of infrastructure development, including navigating through statutes, regulations, and potential litigation on key federal issues. We have experience handling matters involving:

- National Environmental Policy Act (NEPA) compliance & litigation
- Federal resource agency processes and approvals
- Transportation conformity under the Clean Air Act
- Transportation planning and federal aid contracting compliance
- Disadvantaged business enterprise (DBE) matters
- Compliance with federal requirements for outdoor advertising control and highway beautification
- SEP-14, SEP-15, and other special Federal Highway Administration (FHWA) programs
- FHWA Section 404 permits
- Wetland mitigation, Habitat Conservation Plans
